## Kubota L4400

Kubota engine: New generation E-TVCS engine with 45HP is super quiet, uses less fuel and outperforms conventional engines

Power steering: Takes the effort out of turning even with a fully loaded front bucket

Hydraulic PTO: Ensures smooth engagement every time

Sliding gear and constant mesh transmission with shuttle: 8 forward gears and 4 reverse including mechanical F/R shuttle between Low and Reverse for easy front loader work

Wet disc brakes: for longer life and quick stopping

Under hood muffler: For unobstructed vision

Bevel gear 4WD: Completely sealed front axle bevel gears keep dirt out and achieve a tight turning radius

Extra large fuel tank: 43 litre tank for fewer re fuelling stops

## Kubota BX2360 with 54" Deck

Kubota engine: 3 cylinder Kubota E-TVCS diesel engine for high torque rise and cleaner emissions

Hydrostatic transmission: For easy direction changes without clutching making it perfect for mowing and front loader applications

Power steering: Takes the effort out of turning

Wet disc brakes: For longer life and quick stopping

Bevel gear 4WD: Completely sealed front axle bevel gears keep dirt out and achieve a tight turning radius

Rear PTO and 3 point hitch: For a variety of implements such as a rotary hoe, slasher, sprayer, post hole digger, carrier etc

Mid PTO : For Mid mounted mower operation

ROPS: Rollover Protective Structure is standard for safety

Under hood muffler: For unobstructed vision from the seated position

Optional front end loader and mid mount mower deck: Gives the BX2360 incredible versatility

## Kubota T80 Series

Petrol engine: The T80 Series is powered by a 18-23 horsepower heavy duty air cooled Kohler engines.

Cushion ride: Two spring loaded shock absorbers under the seat platform smooth out bumps and jolts for superior comfort (only on T2080 & T2380)

Plenty of legroom: A large operating platform and adjustable seat allows even tall operators extra comfort and ease of operation

Safety: An operators presence switch eliminates the danger of running the mower deck minus a driver in the seated position

Infinity Deck : Allows option of side discharge, mulching or catching without tools to change

Dial type cutting height adjustment: Deck height can be changed without dismantling

## Kubota ZG222

Petrol engine: The ZG222 is powered by a 22 horsepower heavy duty air cooled Kubota V twin engine

Hydrostatic transmission: Integrated twin hydrostatic transmissions are hermetically sealed requiring no maintenance except for the occasional fluid change.

PTO clutch: A wear resistant wet type multi-disc PTO clutch transfer's power with absolute efficiency. For safety the PTO clutch is also equipped with an internal brake

48 inch cut Pro series mower deck: Crank maintenance lift system : Allows the ZG222 front to be raised for easy access to mower deck

Hydraulic deck lift: Foot operated deck lift eliminates the strain from raising the deck with transport lock

Deluxe seat with arm rests: Makes mowing for long periods more comfortable and less tiring
