If you have a large order we can arrange free delivery to your farm if required. Ask us on our bulk buy deals on filters to chisel points or anything you may need. **Specials valid until 31st December 2009 or until stocks last! All prices include GST.**

Have you checked your cab filter in your tractor recently?

Do you use a Carbon Cab Filter for spraying?

Did you know most Carbon Filters need to be changed every 12 months or after approx 200hours of use and should be sealed away when not in use for spraying?

If you can smell even a small amount chemical in your cab it must be changed immediately!

Here at Pierpoint Motors we keep a range of Dust and Carbon Cab Filters for New Holland, Kubota tractors plus we can also source aftermarket cab filters for all other makes of tractors. So don't risk your or your employees' health call us now for a competitive price on all filters for your tractor!
